

Contract Management Powered by the Intalio Platform™

Simplify. Secure. Streamline Every Agreement.

Powered by the Intalio Platform™, the AI-driven Contract Management solution enables teams to manage the entire lifecycle of legal agreements with complete confidence. Through intelligent automation, robust security, and built-in audit trails, it eliminates manual inefficiencies and ensures every contract remains organised, compliant, and fully controlled.

Whether drafting a new vendor agreement or overseeing post-signature obligations, Intalio provides a single, unified platform to collaborate, track, and execute—all while mitigating risk and enhancing operational efficiency.

Benefits

Full Lifecycle Control
Manage every stage, from drafting to execution, within a single environment.

Efficiency Boost
Automate repetitive tasks and eliminate manual document handling.

Scalable & Flexible
Adapt workflows to meet organisational requirements and contract types.

Risk Reduction
Enforce governance policies and safeguard sensitive information.

Transparency
Monitor milestones, obligations, and renewals through real-time

Audit-Ready Compliance
Maintain detailed logs for complete traceability and accountability.

Core Capabilities

1.

Automated Contract Workflows

Optimise contract creation, negotiation, and approval with predefined templates, dynamic fields, and rule-based automation. From initiation to signature, each stage is structured, monitored, and securely tracked.

2.

Real-Time Tracking & Milestones

Supervise deadlines, renewals, and payment schedules through interactive dashboards and automated alerts—ensuring no key date or deliverable is ever overlooked.

3.

Secure Collaboration Environment

Implement multi-layered permissions, enforce policy-based access controls, and preserve document integrity through version history and watermarking—safeguarding confidentiality and accuracy.

4.

Smart Reporting & Analytics

Produce comprehensive reports tracking KPIs, performance metrics, and compliance indicators across teams. Empower data-driven decisions through immediate access to real-time insights.

5.

Seamless System Integration

Integrate Contract Management seamlessly with your wider enterprise ecosystem—ERP, procurement systems, Active Directory, Exchange, or SMS gateways—for synchronised operations and consolidated data management.

How It Works

Initiate:

Draft contracts from predefined templates within guided workflows.

Manage:

Track milestones and automate alerts for key dates and renewals.

Secure:

Apply permission controls & enforce policies for sensitive agreements.

Report:

Measure KPIs & analyse contract performance in real time.

Empowering Teams with Simplified Control

Designed for legal, procurement, finance, and public sector teams, Contract Management transforms complex, manual contracting into efficient, digital workflows. By combining automation, centralised storage, and full transparency, it eliminates version confusion, missed deadlines, and compliance risks, enabling seamless collaboration, improved control, and smarter, faster execution.

About the Intalio Platform™

The Intalio Platform™ is an integrated suite of AI-driven products and solutions designed to automate, integrate, and control the journey of data, content, and processes across the enterprise enabling customers to build and activate operational intelligence.
