

Intalio Sign

Digitally sign documents in utmost security

Intalio Sign is an advanced solution offered to help enterprises meet their e-signature needs and expectations. The solution allows organizations to reach the balance of security and flexibility without compromising on compliance. It provides a cost effective, secure, easier, and faster way of approving and signing organizational content.

Benefits

Signature Management

Meet Regulatory Requirements
Control e-Signature Aspects
Improve Documents Safety

Workforce Development

Overcome Geographic Limitations
Minimize Manual Labor
Simplify e-Approval Workflows

Budget Control

Increase ROI
Control Expenses
Reduce Delivery Costs

Main Features

1.

Signature Configuration

- Allows users to add new signatures by uploading them as images.
- Enables signature customization: font, style, size, color, alignment, and pen color.
- Imports signatures with their details: creation date, expiry date, name last name and more...
- Supports manual signature through signature pads.

2.

Signature Customization

- Configures signatures by adding the URL of an existing template or browsing for a new one.
- Customizes the template's security authorization by updating its status.
- Manages permissions by adding signatures in the same locations.
- Duplicates the signature's placement on selected pages.

3.

Signature Management

- Allows administrators to manage user signatures by adding, deleting or importing signatures.
- Enables users to customize the attributes of a signature.
- Enables users to control the appearance of the signatures' attributes.
- Provides advanced automatic signature capabilities.

4.

Certificates Management

- Allows the creation of certificates by selecting their validity, user's name, as well as start & end dates.
- Enables users to add a password for an additional layer of security.
- Supports the Import of certificates from any store and their assignment to specific users within the certificate list.
- Supports the Export of certificates by defining their names and destination.
