

BankConnect

E-Banking and Mobile banking is a must in this decade to provide acceptable service to clients and end users.

Most banks do have eBanking now, but existing solutions were developed with old technology and can represent security weaknesses.

- ✓ Allows for client onboarding aside from its consultative and transactional benefits
- ✓ Seamlessly integrates with the Core Banking System
- ✓ Allows for both reporting - and transacting (under development)
- ✓ High security, native language for IOS or Android
- ✓ Already integrated with popular the Core Banking System

Sample Screens/Features/Options:

Mobile
Banking
